English

He counsels on projects to design, build and operate mining facilities, electric, industrial, road and ports infrastructure, as well as on company restructuring processes.

He participates in bidding processes with the State for goods or services supply, and the execution of works in concordance with national or international rules. He also represents clients on contract management, and dispute resolutions in the administrative and arbitration areas.

He has been technical secretary of the Equity Restructuring Commission of INDECOPI, participating in several working groups to prepare bankruptcy regulations.
