

## TOMÁS DENEGRÍ

ASSOCIATE

### PROFILE

Tomás Denegri specializes in mining, corporate, mining projects finance and merger and acquisitions.

He is part of the mining and ESG areas, providing advice to companies in the mining sector in their domestic and foreign investments, as well as in the management of their projects.

Tomás focuses on the transactional and regulatory aspects of mining projects. He has experience advising clients in project financing, mergers and acquisitions, as well as in the structuring, negotiation and execution of exploration contracts, joint venture and investment in mining projects. Also in the analysis and structuring of operations related to concessions such as transfer, assignment, option and joint venture agreements.

In addition, he specializes in environmental sustainability issues, such as those related to circular economy, climate change and the integration of environmental, social and governance criteria (ESG) in business activities, among others.
