English

She counsels on energy regulation with an emphasis on electricity markets and clean technology development.

Margaret has experience advising government agencies and private sector companies on public policies, highly specialized regulatory advice and the development of energy projects in general. She worked as a senior associate of major law firms in Peru and Chile, previously as in-house legal advisor at COES-SINAC.

She represents Peru as Future Energy Leader before the World Energy Council (WEC). She is co-founder of PYEP (Peru Young Energy Professionals), as well as member of WIN (Women in Energy) and ASIDE (Ibero-American Energy Law Association).
